

MARKET LITE:

Red lights for a richer, lush tone.

As highlighted in these spectral distribution graphs, the Market Lite Plus “peaks” (produces maximum relative energy output) well into the RED range of the spectrum. Meats look redder and fresher, vegetables appear richer in color, and the greens take on a deep, lush tone. At the same time, the consumer will be impressed by your fresh, clean display. In turn, you will be impressed with the increase in sales due to the appearance of your products under the Market Lite Plus.
