

LED FIXTURES

ENERGY SAVING RECESSED DOWN-LIGHTS

FEATURES AND BENEFITS

The Sunlite 4" Square Downlight is a recessed architectural LED downlight for use in non-insulated commercial and residential applications. The 4" Square Downlight is a highly efficient LED fixture which uses only 20 watts of energy, significantly reducing your carbon footprint while maintaining a very high quality of light. It utilizes a diffused lens and matte white trim which allows for a uniform beam spread.

APPLICATIONS

The 4" Square Downlight is ideal for retail lighting, museum lighting, hospitality lighting, and architectural lighting.
